

BIPV Customized Module

Meet all your architectural needs

SUPERIOR PERFORMANCE

Customized BIPV Solution

Shape, color, size and pattern can be customized to meet the specific design requirements of different projects.

Semi - Transparent with Variable Transmittance

The customized transmittance integrates the photovoltaic system with the overall building design, keep the building open and lighting effect.

Low Degradation Rate

Power output warrant more than 85% in 25 years, degradation rate is 2% in the 1st year and 0.5% every year thereafter.

International Recognized Certificates

All of the products are certified by the authorized certification authority and meet BIPV construction standards.

QUALITY WARRANTY

0.5% Annual Degradation

2.0% First Year Power Degradation

10 year Product Warranty

25 year Performance Warranty
